

ULTRA-LYTE

CLEANER - SAFER - BETTER

ADVANCED TECHNOLOGY... ELECTROLYZED WATER

**CLINICALLY PROVEN
SANITIZATION
AT A MICROSCOPIC LEVEL
--- KILLING BACTERIA IN MILLISECONDS**

Ultra-lyte is a clinically proven, proprietary, all natural spray-on sanitizer (200 ppm). The Electrolysed Water (HOCL) technology is no-rinse, non-bleaching and approved by Health Canada for sale in Canada.

DIN # 02362546.

Presently, other sanitizers are limited in either efficacy, application, or safety, by allowing bacterial resistance, producing toxic residue, or having human contact risks.

POWERFUL - ECO FRIENDLY DISINFECTANT DESTROYS:

Bacteria, Mold, Fungus & Viruses

NOTE: Ultralyte is a broad spectrum viricidal hard surface disinfectant that is expected to inactivate SARS-CoV-2 (The virus that causes Covid-19)

- Eco-friendly
- Hypoallergenic
- Up to 100X more effective than bleach
- Organisms destroyed rapidly
- Kills bacteria, mould, & viruses
- Safe to Handle and Apply
- Can be sprayed/fogged, mopped and wiped without harmful reactions
- No special training required
- No PPE required
- Chemically -- residual free
- Easy drain disposal -- breaks down to water
- No need for multiple sanitizers

**After "Safe" sanitizing with ULTRA-LYTE
RESEARCH HAS SHOWN A 99.9 % + KILL**
